Warah Global Consultants

CONCEPT OF FOOD SECURITY

Food security represents a great challenge for many countries which suffer from the scarcity of agricultural crops and the low production rates. As a consequence, they have considerable weakness in food manufacturing to meet the needs of the local market. Food security is a concept that is directly related to the security of each country. The reports of the FAO indicate that there are millions of people who are threatened of hunger or disease due to the rarity and lack of diversity of food. Therefore, the idea of food security conference is generated to be a meeting for the public and private sectors and those who search for agricultural investment opportunities to identify the current conditions and anticipate the future capabilities in view of the set plans, the bodies executing them, the time period and the allocated budgets.

The Food Security Expo 2010 will be held under the Auspices of H.E. The Public Work and Municipality Minister **Dr. Fadhel Safar**, with **Kuwait Institute for Scientific Research (KISR)**, **Master Food Solutions Company & Kuwait Flour Mills and Bakeries Co.** as the Main Sponsors.
